Figure 1.2: Updated Gantt chart

2. TIMELINE COMPARISON AND WORK ALLOCATION

When compared with the proposal Gantt chart (shown in Figure 1.1) to the current Gantt chart (shown in Figure 1.2), the following changes occurred,

1. Delay in the mobile application design

Reasons: Due to some requirements changes I have updated wireframes three times and also take some time to create high fidelity diagrams.

2. Extension of mobile app implementation

Reasons: Due to weight of research component I have focused on the research area. So that Could not be able to finish it.

When compared with the proposal Gantt chart (shown in Figure 1.2) to the current Gantt chart (shown in Figure 1.3), the following changes occurred,

1. Delay in mobile application development
2. Delay in backend implementation

3. FINALIZED WORK ALLOCATION
